

ABDI ALI

JUNIOR DEVELOPER

✉ abdialicanada20@gmail.com ☎ 647-901-5774 📍 Toronto, ON 💼 www.linkedin.com/in/abdi-ali2022/ 🏠 TorontosFinest

SUMMARY

Enthusiastic junior full-stack developer proficient in front-end web application development using JavaScript, CSS, and HTML, as well as the development of back-end web applications using Express and React. I recognize the importance of a strong, collaborative team as well as the process of design, analysis, and evaluation when building applications. I hope to join a modern tech environment that shares these values.

SKILLS

LANGUAGES: JavaScript, HTML, CSS, Java, C#, PHP, Ruby

FRAMEWORKS/LIBRARIES: React, jQuery, Ajax, Express, NodeJS, Rails, ASP.NET, Bootstrap

DATABASES: MySQL, MongoDB, PostgreSQL

PROJECTS

Mmemoirs

mmemoirs is a full-stack web application built using React, Express, Node, and PostgreSQL. The purpose of the app is to create a nostalgic memoir space where users can register an account and upload memories from vacations they went on, fun events they've visited, or a birthday party that they want to remember forever.

Interview Scheduler

Interview Scheduler is a webapp created with react where you are able to schedule interview appointments between lighthouse lab students and a list of lighthouse mentors. Should you want to edit your booking, or perhaps cancel it, you are able to.

Resource Wall

Full-stack web application where you can create, rate, like, comment on, and save resources. Created using JavaScript, EJS, AJAX, SCSS, and jQuery.

Tweeter

AJAX-based twitter clone single-page app created with JavaScript, HTML, CSS, and jQuery.

TinyApp

TinyApp is a full-stack web application built with Node and Express that allows users to shorten their long URLs.

EDUCATION

Lighthouse Labs

Nov. 2021 - Feb. 2022

Diploma Web Development 2022

Learned how to create full stack web applications using a multitude of JavaScript frameworks such as React, Node, Express, and jQuery.

George Brown College

Sept. 2018 - Apr. 2021

Advanced Diploma Computer Programmer Analyst 2021

Studied advanced OOP, data structures and algorithms, data science with python, and scrum/agile methodologies in an interactive environment.

Created web applications with authentication that store user input using CRUD.

EMPLOYMENT

IKEA, Home Delivery Coworker - customer relations, 1475 The Queensway

Oct. 2019 - Nov. 2021

- Worked with delivery companies to ensure customers' orders were delivered on time.
- Trained new department coworkers and guided them their first weeks on the job.
- Helped create new measures within department during the pandemic to ensure safety.
